

Heartwood wins PAM 2010 Award

In this year's PAM Awards Investmaster is delighted that our client Heartwood Wealth Management has won the category of "Best Overall Wealth Solution Provider – HNW"

The criterion for this award is defined as the institution (whose focus is mainly on clients with up to £20 million in investible assets) that has offered the best overall solution to clients that has enabled them to enhance and preserve their total wealth as well as their financial wealth.

For several years Investmaster has continued to develop our core InVantage platform to support the wealth market, with Heartwoods needs at the fore of our development plans.
